PROFESSIONAL SUMMARY

Motivated Computer Science & Engineering student at Daffodil International University with hands-on experience in software development, web technologies and AI-driven applications. Proficient in Python, Java, C, C++ and JavaScript, with real-world projects spanning management systems, AI chatbot applications and responsive web apps. Active in the university tech community as an Associate Member of DIU CPC and an Executive Member of Daffodil AI Club, and **1st Runner-up in the Prompt Battle at AI Dev Fest 2026**.

EDUCATION

Bachelor of Science in Computer Science & Engineering 2025 – Present
Daffodil International University, Dhaka, Bangladesh

ACHIEVEMENTS

1st Runner-up, Prompt Battle October 2026
Upay Presents AI Dev Fest 2026 · organized by DIU CPC, Daffodil International University

LEADERSHIP & ACTIVITIES

- **Executive Member** – Daffodil AI Club, Daffodil International University
- **Associate Member** – DIU CPC (Daffodil International University Computer Programming Club)

PROJECTS

Hotel Management System Java · MySQL
- Developed a hotel management system for room booking and customer management with a MySQL-backed data layer.

Image Rating System
- Built a platform where users can upload and rate images, with backend data handling.

Hospital Emergency Queue Management System
- Developed a system to manage patient queues in a hospital emergency department, prioritizing cases by urgency and tracking waiting status.

CAREER OBJECTIVE

To build a successful career as a Software Engineer by contributing to innovative projects, continuously learning modern technologies, and developing impactful software solutions that solve real-world problems.
